Agreement with respect to the claims f) ☐ was reached. g) ☒ was not reached. h) ☐ N/A.

Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

Applicant argued that a binder content of 10-15 wt% would not be obvious in view of the Koichiro teaching of 8 wt% binder. Applicant points out Table 2. Examiner stated that claim 7 recites "binder comprises", which is open language and claim 12 states the binder includes cellulose. Thus, the 10-15 wt% binder ranges can be the copolymer and cellulose, not just the copolymer. Furthermore, the specification and examples indicate that the invention lies in the ratio of the PVDF and SBR polymers, not the amount of binder (see Table 1 and page 6). Note any significant claim amendments would require further search and/or consideration.

(A fuller description, if necessary, and a copy of the amendments which the examiner agreed would render the claims allowable, if available, must be attached. Also, where no copy of the amendments that would render the claims allowable is available, a summary thereof must be attached.)

i) ☒ It is not necessary for applicant to provide a separate record of the substance of the interview (if box is checked).
